

QUEST

JOURNEYS INTO YOU, ME & WE

'VILLAGE-GENIUS' MENTORING PROGRAM FOR 10+ YEAR OLDS

WEDNESDAYS 9:30AM - 3:30PM

IN & AROUND THE BYRON SHIRE

WISDOM STORIES TELL US WE ARE ALL ON A QUEST. A QUEST TO DISCOVER AND EXPRESS THE CREATIVE PATTERN WITHIN OUR-SELF. A PATTERN THAT ADDS A NECESSARY CONTRIBUTION AND UNIQUE BEAUTY TO THE TAPESTRY OF CREATION ONGOING. THIS PATTERN IS OUR GENIUS. THE QUEST IS TO JOURNEY TOWARDS OUR GENIUS.

AT QUEST WE SUPPORT THE JOURNEY TOWARDS UNFURLING THIS GENIUS, ALONGSIDE EXPLORING AND DISCOVERING THE 'GENIUS-PATTERNS' WITHIN OUR COMMUNITY LANDSCAPES, PEOPLE & ORGANISATIONS.

TERM 2
FACILITATORS

PAUL CREBAR
MAHLI HAWKE

Welcome to a weekly journey of learning, playing and collaborating for 10+ year olds. Grounded in the wisdom of the IONS 'Worldview Explorations' program, rooted in the story of genius-interconnectivity, and populated by adventures in our natural landscapes with visits from inspiring organisations and people living their genius.

Facilitators of Quest support a mentoring approach with the creation of a village-focused, fun, joyful, safe and experiential space to cultivate a deeper sense of, and culture of belonging. Belonging to the interconnected web of life that surrounds us, our personal expressions, visions and personhood, and those with whom we share this journey with.

The key mentoring intention is to support learners with exploring and journeying towards their genius-self. This is achieved by providing tools and experiences that expand their capacity to know their unique gifts, and to develop these within social contexts and collaborative projects. This process supports the sense of individual purpose within the collective creation of a flourishing-earth future. A gift for life-long learning and positive contribution.

Quest is supported by wild-nature, experienced local facilitators and the vibrant hearts behind our local 'Village-Genius'.

Journeying with this ongoing program will include:

- activities and explorations of experiential inquiry
- reflection and journaling
- structured and unstructured games
- imagination development
- free-play
- movement practices
- pattern-mind practices
- creative expression
- nature-adventure
- storytelling
- collaborative projects with real-world outcomes
- visits to inspiring community places
- visits into wild-nature
- Discussions and experiences with people in the community living their genius

We encourage parents of Quest attendees to take an active role in linking these community organisations and members with us where appropriate and possible.

Organised by Luminous Youth, hosted by Paul Crebar and supported by experienced community facilitators the program focuses on using a social-emotional-learning (SEL) model to give learners tools for success in the 21st century, with the addition of genius-culture community integration.

Some of these tools for the 21st century include:

- Cognitive flexibility
- Comfort with unfamiliarity
- Appreciation of diverse perspectives
- Agility in the face of rapidly changing circumstances
- Self-awareness
- Capacities for inter-cultural and intergenerational communication
- Ability to hold multiple points of view simultaneously
- Capacity for discernment that relies equally on intellect and intuition
- Conflict resolution
- Social-emotional intelligence
- Collaboration and teamwork
- Creative thinking
- Problem solving
- Empathic awareness
- Design-based thinking
- Project-based learning

TRIAL PROGRAM RUNS

JUNE 2 / 9 / 16 / 23

\$75 P/WK OR \$280 FOR 4 WEEKS

TERM 3 BEGINS WED 14TH JULY

9 WEEKS \$675 FOR THE TERM.
