TOGETHERING IS SUPPORTED BY OUR  
BEAUFUL LOCAL NATURAL LANDSCAPES,  
OUR COLLECTIVE INTELLIGENCE AND THE  
HUMAN-NEED FOR BELONGING

SINCE THE DAWN OF HUMANITY WE HUMANS HAVE ALWAYS SUNG OF ALL OUR RELATIONS. WE'VE ALWAYS SUNG OF BEING INTERWOVEN WITH WEB OF LIFE THAT IS THIS EARTH AND OUR SPECIES UNITY WITHIN IT. OUR ACTIONS ALSO MODELED THIS TO OUR YOUNG PEOPLE, THEY WITNESSED ITS SIMPLICITY, ITS RELEVANCE & ITS SACREDNESS.

BY THE ONGOING PRACTICE AND PLAY THAT CELEBRATED OUR BELONGING THE FEELING OF BELONGING WAS HONOURED AND KEPT. KINSHIP TO THE BEINGS OF PLANTS, ANIMALS, FUNGI AND ANCESTORS INTEGRATED INTO OUR COLLECTIVE ACTIONS AND INTERACTIONS.

SO IN THIS TIME OF THE GREAT TURNING AND THE REBUILDING OF VALUES SYSTEMS THAT CELEBRATE OUR TOGETHERNESS WE BRING YOU A MORNING OF TOGETHERING, WITH OUR LOCAL HOMESCHOOLING FAMILIES. THROUGH ADVENTURE, PLAY, SONG, STORY AND CELEBRATION WE COME TOGETHER AND HONOUR OUR VILLAGE OF TOGETHERNESS, AND OUR SHARED FEELINGS OF BELONGING.

**Welcome** to a weekly journey of togetherring.

For children a themed experience around the ecological happenings of our local landscape. Integrated with song, movement, play, storytelling, collaborative craft, and exploration together.

For parents, a shared village experience of song, facilitated discussion on homeschooling/conscious parenting, storytelling and collaborative craft.

Rooted in the story of "interconnectivity" with belonging being a core human need we are fostering the creation of a village-focused, fun, joyful, safe space to cultivate a deeper sense of, and culture of belonging.

**Respect and gratitude to our inspirers and teachers:**  
Our Children, Joseph Chilton Pearce, Pam Leo, Thomas Berry, Alfie Kohn, Rachelle Garcia Selega, Jon Young, Gabor Mate, Simon Paul Harrison, Bill Plotkin, John Abbot, Doc Childre, Peter Tompkins & Christopher Bird, Brian Swimme, Mary Evelyn Tucker, Nassim Haramein, Robin Grille, Peter Wohlleben, Naomi Aldort, John Holt, Mark Collard, Marian De Souza, Rebecca Nye, James W. Peterson, Peter Slattery, Stephen Buhner and many more.

Facilitated by Paul and Erica Crebar we draw on cutting edge science that meets ancient human wisdom and weave it together in a package of authentic conversation and playful practice.

Inspired by over 40 years of research that reshapes the way we understand our embeddedness within nature and the role the human species plays in sustaining the creative expression of the universe together.
